

Wandering Cooks Catering

How it works

1

Pre-order & Pre-pay

Your group won't go hungry if you secure your food before the big night. You can choose between platters or main meals or both!

How it works:

- Settle on the date that you'd like to have your event
- Request catering menus for that day
- Decide between the platters and/or main meals
- Place your order at least a week before your event with Ash, the Events Manager
- Pay your invoice prior to your event date
- Rock up and enjoy!

FAQ's

How will the food makers know where to place our platters?

We'll reserve a couple of tables for you which will be the location that the platters will be placed by our food makers.

How will the food makers know that I've ordered a pre-paid main meal?

Our bar staff will issue you Wandering Cooks tokens so you can go up to our kitchen fronts to redeem your pre-paid meals whenever you like throughout the evening.

What if I need to order more food?

Please do, you just won't be able to order anything off the catering menu. You must pay for this food on the night.

2

Pay as you go

If you don't wish to pre-order any food for your group, that's totally fine with us. On the night you'll need to see what food is available from the food makers and order as you please.

There may be a wait or the chance of food selling out but heck, you're riding by the seat of your pants!

FAQ's

Will the catering menu be available on the night I attend?

No way, José! Those menus are for people who would like to pre-order and pre-pay. There will be delicious choices for you on the night.

Do your foodmakers have eftpos facilities?

Heck yes - absolutely!
